Flu jabs for carers

The seasonal flu vaccine is the best way to protect yourself and the person you care for from flu, and will prevent you from being unable to fulfil your caring role.

Carers are eligible to receive the seasonal flu vaccine for FREE each winter and are included in our flu campaign each year.

If you are registered elsewhere, please inform your GP of your Carer status so that you are offered the flu vaccine.

Online ordering of prescriptions:

As an alternative to contacting the prescription phone line, we offer a service called "My Health Online" whereby regular monthly prescription items can be requested online.

This is a simple process which involves registering a unique email address to a patient's record in order to create an account.

If you would like your carer to register on your behalf, please complete the section below:

Email address: _____

Please note, the system will only allow an email address to be linked with one patient. Therefore, if your carer is already registered for this service, a different email address must be used to enable them to use the service for you.

Your carer will then be issued with a registration form which details the steps involved to complete the registration process.
